How Does This Affect the Income Calculator?

All calculations that are currently in a user's dashboard in the [CPD Income Eligibility Calculator](#), as well as calculations completed going forward, will use the FY 2020 Income Limits for the purposes of determining eligibility.

Although your data and calculations are accessible within the CPD Income Eligibility Calculator for a period of time, this tool is designed to allow you to more easily update a beneficiary's income in the future – it is not a repository of income calculations completed in the past.

Now that the Income Calculator has been updated with FY 2020 Income Limits, calculations based on the FY 2019 Income Limits data are accessible only if downloaded from the calculator and saved to a user's hard drive (or printed off) prior to today.
