HTF Reports Now Posted

The following Housing Trust Fund (HTF) program reports have been posted on the HUD Exchange.

Additional HTF program reports are available on the [Housing Trust Fund Page](#).

HTF Reports as of 1/4/2021 and 1/6/2021 Now Available:

- [HTF Deadline Compliance Status Reports](#): The reports assist grantees and HUD Field Offices in monitoring compliance with the two-year commitment requirement of the HTF statute and the five-year expenditure requirement of the HTF regulations.

HTF Deadline Compliance Status Reports are available for Grant Years 2016, 2017, 2018, and 2019.

HTF Reports as of 12/31/2020 Now Available:

- [HTF Open Activities Report](#): This report supports HTF grantees in tracking their open HTF activities in the Integrated Disbursement and Information System (IDIS). Information can be viewed by categories such as tenure type, activity type, and percentage of funds drawn.

- [HTF Vacant Units Report](#): This report assists HTF grantees in identifying units marked "vacant" in IDIS. If the vacant units are part of a completed HTF IDIS activity, grantees must enter occupancy and beneficiary data for these units within 120 days of the final drawdown for the activity in IDIS. Field Offices can use this report as a desk monitoring tool to view each state's progress toward 100 percent occupancy.

For HTF IDIS users, these reports can be run at any time as the IDIS PR107 and PR106 reports.
