Resources for DCTA Grantees and Smaller Distressed Communities

If you work for a local government (tribe, city, town, village, county, etc.) that serves a small community, keep reading!

The Distressed Cities Technical Assistance (DCTA) program supports small units of general local government (UGLGs) that are distressed and have recently been impacted by a natural disaster. Specifically, the DCTA program is designed to improve the fiscal health and administrative capacity of small UGLGs.

HUD has developed a library of resources relevant to DCTA grantees and smaller distressed communities impacted by a natural disaster. Explore this collection of resources which features COVID-19 pandemic response resources as well as general resources. Check back regularly for new resources and information!

DCTA program resources are organized by the following types:

- Resources and Guidance
- Webinars and Events
- Studies, Reports, and Tools
- Funding Opportunities
