NEWELEAF

JUSTICE ENTERPRISES

A SOCIAL ENTERPRISE DIVISION OF THE SURVIVOR ADVOCACY OUTREACH PROGRAM

Who is SAOP?

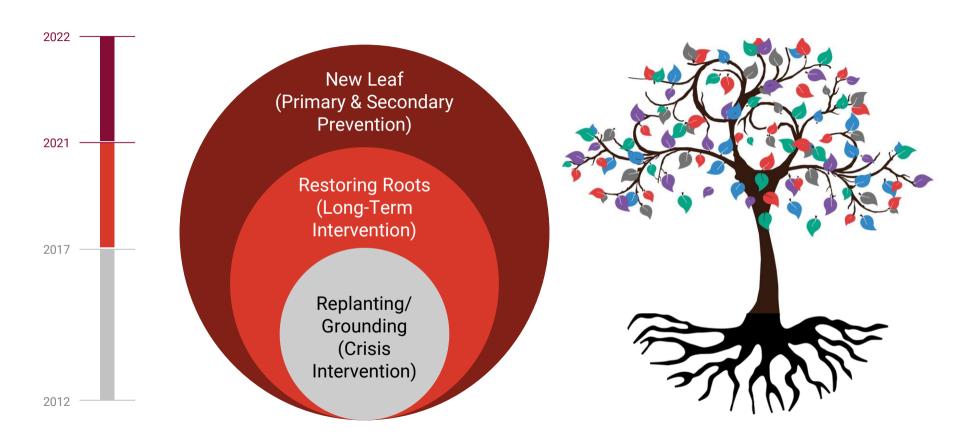

Why: We believe that everyone deserves a life free of relational violence

How: We do this in our communities by educating about sexual trauma/healthy relationships to empower choice and enact change

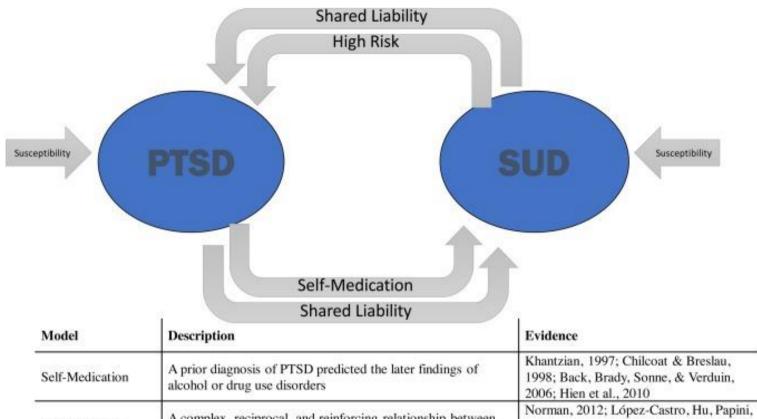

What: Rape Crisis Center, Domestic Violence Program, and Social Enteprise

An organization dedicated to the prevention of and response to sexual assualt, domestic violence, human trafficking and stalking in the Southeast, Ohio region.

	Self-Medication		
	Shared Liability	i e	
Model	Description	Evidence	
Self-Medication	A prior diagnosis of PTSD predicted the later findings of alcohol or drug use disorders	Khantzian, 1997; Chilcoat & Breslau, 1998; Back, Brady, Sonne, & Verduin, 2006; Hien et al., 2010	
Shared Liability	A complex, reciprocal, and reinforcing relationship between traumatic stress-related disorders and SUDs	Norman, 2012; López-Castro, Hu, Papini, Ruglass, & Hien, 2015; Gilpin & Weiner, 2017;	
Susceptibility	Early stress exposure leading to PTSD increases the vulnerability to develop SUDs	Kendler et al., 2000; Young-Wolff, Kendler, Ericson, & Prescott, 2011	
High-Risk	Substance intoxication and/or other high risk contexts (e.g., drug related crime) lead to trauma exposure and development	Davis, Stoner, Norris, George, & Masters 2009; Haller & Chassin, 2014; Windle	

1994

of PTSD

Strategies to Prevent Sexual Violence

Strategies to Prevent Domestic Violence

Teach safe and healthy relationship skills

- Social-emotional learning programs for youth
- Healthy relationship programs for couples

Engage Influential adults and peers

- Men and boys as allies in prevention
- · Bystander empowerment and education
- · Family-based programs

Disrupt the developmental pathways toward partner violence

- · Early childhood home visitation
- · Preschool enrichment with family engagement
- Parenting skill and family relationship programs
- Treatment for at-risk children, youth, and families

Create protective environments

- Improve school climate and safety
- Improve organizational policies and workplace climate
- · Modify the physical and social environments of neighborhoods

Strengthen economic supports for families

- · Strengthen household financial security
- Strengthen work-family supports

Support survivors to increase safety and lessen harms

- Victim-centered services
- Housing programs
- · First responder and civil legal protections
- · Patient-centered approaches
- Treatment and support for survivors of IPV, including teen dating violence

Strategies to Prevent Adverse Childhood Experiences

Strengthen economic supports to families

- Strengthening household financial security
- Family-friendly work policies

Change social norms to support parents and positive parenting

- Public engagement and enhancement campaigns
- Legislative approaches to reduce corporal punishment

Provide quality care and education early in life

- Preschool enrichment with family engagement
- Improved quality of child care through licensing and accreditation

Enhance parenting skills to promote healthy child development

- · Early childhood home visitation
- Parenting skill and family relationship approaches

Intervene to lessen harms and prevent future risk

- Enhanced primary care
- Behavioral parent training programs
- Treatment to lessen harms of abuse and neglect exposure
- Treatment to prevent problem behavior and later involvement in violence

Table 1: Risk and Protective Factors for Substance Use Disorders

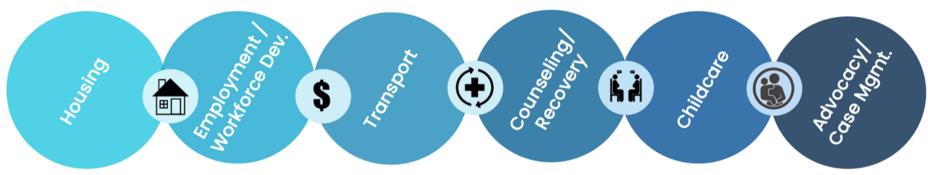

Protective Factors

Risk Factors

Level

Individuals	Genetic predisposition (positive family history), psychiatric disorders, low perception of risk of substance use, impulsiveness, hostility, rebellious- ness, deficits in social skills, aggression, alien- ation	Strong social skills, caring and cooperative nature, positive sense of self, problem-solving skills, sense of humor, autonomy, sense of purpose, religiosity or spirituality, skills to resist negative influences by peers
Family	Families with abuse or excessive conflict, families with interpersonal distance or low support, poor cooperative problem-solving, positive attitudes toward substance use	Positive bonding, lack of severe criticism, trust, mutual and reasonably high expectations, clear rules, mutual involvement in activities, involvement in religious or spiritual groups
Peer Group	Involvement with other individuals who use alco- hol and drugs or engage in other risky behaviors	Involvement in activities not involving substance use, good communication and support among peers
Work/School	A negative climate, low or overly high expectations of employees/students	A caring and supportive climate, appropriately high and attainable expectations, clear standards and rules, particion in important tasks and decisions
Communities	Norms, customs and policies that permit or promote substance use, extreme economic deprivation, disorganization, alienation of individuals from their cultures, pro-use messages in the media and advertising	ortive climate, high expectations for citi- runities for participation
Society	Availability of substances, poor economic conditions, unemployment, discrimination and marginalization	Counter-advertising messages, enforcement of relevant laws, restricted availability of and access to substances
