

NEW LEAF JUSTICE ENTERPRISES

CREATING PATHWAYS TO EMPOWERMENT, EDUCATION, AND ECONOMIC JUSTICE

At New Leaf, we understand that experiencing trauma and substance misuse uproots survivors from their community and support networks. New Leaf reestablishes these connections so our participants and their children can thrive.

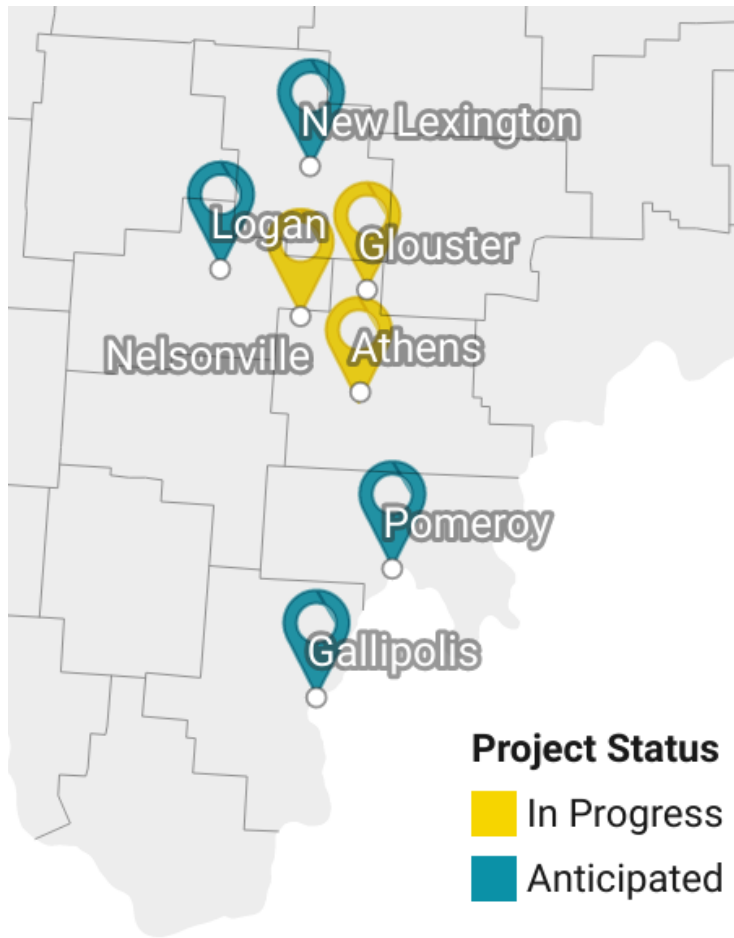

New Leaf Community Components

Each New Leaf Community will have the facilities and staffing structure to provide all the below services at no cost. The program components/facilities in each community are clustered into New Leaf community micro-centers meaning all services are located within a 10-minute walk of each other and most services will be open to the larger community whenever possible.

New Leaf prevents relational traumas by utilizing the following evidence-based strategies identified by the Center for Disease Control and Prevention:

	Child Abuse & Neglect	Sexual Violence	Intimate Partner Violence	Adverse Childhood Experiences
Strengthening economic supports for women and families	✓	✓	✓	✓
Supporting victim/survivors to lessen harms	✓	✓	✓	✓
